Graduate Test Analyst

- Auckland or Wellington-based
- Competitive remuneration
- Permanent positions

The Testing Consultancy - who are we?

Hopefully we'll be your next employer. The Testing Consultancy (TTC) is a global specialist testing company with a focus on helping organisations transform the way they deliver quality software. We have broad capabilities across a wide range of testing areas that enable our clients to increase the speed and quality of software development, reducing risk and cost.

We have offices in Auckland, Wellington, Houston and Singapore. Within our doors you will find a group of passionate and enthusiastic people who are all on the same team and keen to show the world what we can do. We have a culture that is social, collaborative and supportive, but we are also high achievers, striving to provide only the very best service to our growing client base.

What we need

Right now we are growing quickly. This is a fantastic opportunity for recent graduates with approximately 2 years working experience to join our growing team. As a junior tester you will be involved in a range of high profile projects with some of our leading clients. We offer a supportive environment to launch your career as a Test Analyst.

Here's what we are looking for:

- A strong interest towards testing and implementing best testing practises
- Passion for working in the information communication technology industry
- An inquisitive and explorative mind-set to tackle complex and challenging scenarios
- Tertiary qualification in software engineering, computer science or similar.
- Excellent written and interpersonal communication skills
- Solid analysis and requirement gathering experience

We are looking for extremely passionate people who are able to think outside the box, evaluate the situation at hand and test appropriately in context to the requirements. You will be responsible for converting software requirements into tests and subsequently test execution. You will engage, add value and collaborate effectively with business analysts and developers. Your responsibilities across the testing life cycle will be dynamic and varied.

Our clients are well-known and respected companies and you'll find yourself immersed into a fun culture with great opportunities for career progression. There are often opportunities to work overseas with us too.

What we will give you in return

Along with being part of a fabulous company with a great bunch of people, your career development will be taken seriously. Our people are our most important strength and we take a keen interest in what you want to achieve with your career goals. We will work with you to ensure you are given as much opportunity to extend your skills and experience.

This is an excellent opportunity not to be missed! If you would like to be considered for one of these positions, please send your CV and covering letter to Tai Moananu and advise which location (Auckland or Wellington) you prefer.
